CENTER ON THE HILL ... THE PLACE FOR ACTIVE ADULTS

— FALL 2017 —

**A**s you read this Fall 2017 newsletter, I will be celebrating the beginning of my fifth year as the Director of the Center on the Hill. I truly enjoy seeing each of you walk through the door. It brightens my day and knowing that you're coming here to grow, learn and improve brings joy to my heart.

This Fall 2017 newsletter has some exciting new programs and many favorites from years past. In fact, this newsletter has over 25 new programs to pick from. Below are a few that I'd like to highlight. Please make sure to look within this newsletter to find out more about all our ongoing classes in yoga, art, dance, t'ai chi, gonging and more.

**Online Safety and Security for Seniors —** Having access to the Internet can help you connect with love ones near and far, give you easy access to news information and entertainment. However, you also have to be aware of issues like computer viruses and spam emails to name a few. (page 4)

**Why Music Matters? Prevent Memory Loss by Playing and Listening to Music —** Numerous studies show that one can prevent memory loss by actively engaging in playing music, singing, or even just listening to music! You can even ward off dementia and Alzheimer's disease with music. (page 9)

**Art Programs —** We're extremely fortunate to have three very diverse art education programs this semester. The first one is our Dessert with a Docent program from the Philadelphia Museum of Art featuring their recent exhibition "Wild" by Michael "Nick" Nichols. Next Flo Gelo returns to present "African Woman Artists". She will take us on a journey that will enable us to "hear" from African women artists about women's lives

in Africa. Finally, we're delighted that Suzanne Fitzpatrick, docent and art educator, is back this semester to discuss Portraiture during the "Who's Looking at Who" program. (pages 6-7)

**Opioid Addiction and Older Adults —** Did you know that more than sixty percent of drug overdoses are occurring in adults over age fifty? Philadelphia ranks first in the state, followed by Delaware, Bucks and Montgomery counties, for opioid overdoses. Drug overdoses are happening here in our community, to our loved ones. (page 12)

I wish each and every one of you a safe and healthy autumn. I hope that it is a rewarding time for you and that the Center on the Hill will play a part in keeping you active and feeling alive.

With gratitude,

*Leslie*

Concert pianist and educational expert Marja Kaisla, with extensive experience in teaching older adults, will talk about the latest research in the importance of engaging in musical activity to improve memory and processing speed, and how music leads to increased activity on both the left and right side of the brain, which can prevent cognitive brain disease development such as dementia and Alzheimer’s. She will also share how to engage in musical activity regularly to communicate, improve one’s quality of life, and preserve and strengthen social networks. Whether you have never held an instrument before or played one all your life, you will want to learn the best tools to keep your memory and other brain functions working at their optimal level.

## **BASICS OF LONG TERM CARE (BLT) FOR THE SANDWICH GENERATION**

*Tuesday, November 14*

*1:00pm – 2:00pm*

*Free*

Does this sound familiar? Irene's daughter comes into our office to ask about home care for her mother. She says her mother is about to be discharged from rehab and she has been told by the social worker that her mother will need round the clock care when she first comes home. The daughter has called Medicare and been assured that Medicare will cover the cost of this "non-medical" care.

Unfortunately, this is not the case! It is then our job to educate someone who has been given mis-or-partial information, and break the news to them that non-medical custodial care in the home is, nearly all the time, an individual financial responsibility. The goal of this workshop is to educate and empower about the Basics of Long Term (BLT) care: what long-term care is, how it is defined, who pays for it, what Medicare covers, what is 'out of pocket' and the many resources available.

*Presenters: Bess Wray, Owner & Founder, Human Touch Home Care, Ltd. Judy Dorshimer with 40 years experience in nursing and care-management. and a representative from Therapy Choice.*
