ART GALLERY

JANUARY – NIKKI SERAFIM

Nikki grew up with a dad who loved to photograph holidays, birthdays, vacations and summers at the shore. She enjoyed the family gatherings years later where they would see all of those old documented memories. When she had children of her own she wanted to capture these memories. As a stay at home mom, she started appreciating nature much more through the eyes of her children. The small things in life like butterflies, flowers, and birds seemed to jump out. She took family vacations that often lent themselves to her appreciation of the natural beauty surrounding her. Like her father, she found herself running to get a camera to remember those moments with nature as well as the moments with her children. What started out as wanting to document milestones turned into a hobby and now a passion. She now enjoys the artistic side of what her eye sees when she's looking into the lens and produces with a photograph, whether the subject be people or nature.

Pilates is a method of exercise that consists of low-impact flexibility and muscular strength and endurance movements. It emphasizes proper postural alignment, core strength and muscle balance. The exercises elongate and strengthen your muscles, improving muscle elasticity and joint mobility. A body with balanced strength and flexibility is less likely to be injured. Please bring your own mat.

ALL HOME CARE IS NOT THE SAME

Tuesday, February 6
1:30pm – 2:30pm
Free

Each day in the United States, 6,000 people turn 65 years of age. One in five Americans will be older than age 65 by the year 2030 (American Association of Retired Persons, 2003). This increase of U.S. seniors translates into a staggering increase of people looking for assistance with daily living activities. Ask most seniors where they would prefer to age, and the majority will say they want to stay in their own home. The preference to age at home along with an increasing senior population has led to incredible growth in the in-home care service industry. In-home care is a care solution that can help seniors with their preference to stay in their home, however not all in-home care is the same. There are a number of in-home care options available. Before you select an individual or an organization to provide care for a loved one, make sure you research providers and ask the right questions. In this session, Sue Simon, Client Care Coordinator for Comfort Keepers, will:

- Discuss the range of care services and assistance available to seniors and others with disabilities who need help in order to remain in their home
- Review the differences amongst In-Home Care Providers
- Answer your in-home care questions

You are invited to be a part of us. Simply come with a light, whole-hearted willingness to participate, and a beginner’s mind.

David Dimmack, M.Ed., has been practicing holistic healing and mindfulness meditation for over twenty five years. He is one of the few westerners to be ordained as a lay dharma teacher by the venerable zen master Thich Nhat Hanh.
